

Before you spend any money fixing your database, it's only smart to find out what needs fixing. We can help with that.

## FREE Database Diagnostic Report

Libraries run on metadata. Put simply, poor MARC records result in poor search results and lead to poor circulation - a waste of everybody's time and money.

With this report, you get real information about your specific MARC database. It's easy to read with tables, graphs, and a brief explanation for each measurement.

### Including ...

- ✓ How many material type, punctuation and indicator errors your records contain
- ✓ How many records are AACR2 and how many are RDA
- ✓ How many records have obsolete or out-of-date subject headings
- ✓ How many items could have Lexile® levels or reading program information added
- ✓ How many items could have award notes added
- ✓ How many records have missing authors, ISBNs, Summary Notes, Table of Contents, and more
- ✓ How many records have duplicates

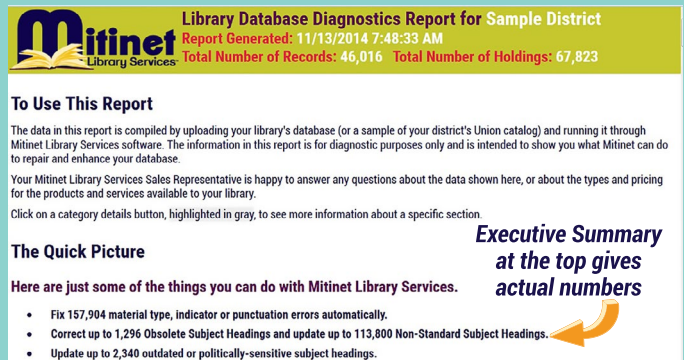

Best of all, it's information about your library, in a format you can use to decide what types of services you need.

PLUS use the Executive Summary at the top of the report to help justify database services to principals and administrators, or to include as justification for grant proposals.

We've partnered with Gumdrop Books™ to bring you this special offer. Please mention your Gumdrop Books™ Sales Rep when you contact us.

Library Database Diagnostics Report for Sample District  
Report Generated: 11/13/2014 7:48:33 AM  
Total Number of Records: 46,016 Total Number of Holdings: 67,823

**To Use This Report**  
The data in this report is compiled by uploading your library's database (or a sample of your district's Union catalog) and running it through Mitinet Library Services software. The information in this report is for diagnostic purposes only and is intended to show you what Mitinet can do to repair and enhance your database.  
Your Mitinet Library Services Sales Representative is happy to answer any questions about the data shown here, or about the types and pricing for the products and services available to your library.  
Click on a category details button, highlighted in gray, to see more information about a specific section.

**The Quick Picture**  
Here are just some of the things you can do with Mitinet Library Services.

- Fix 157,904 material type, indicator or punctuation errors automatically.
- Correct up to 1,296 Obsolete Subject Headings and update up to 113,800 Non-Standard Subject Headings.
- Update up to 2,340 outdated or politically-sensitive subject headings.

**Executive Summary at the top gives actual numbers**
